

# 5 GMA execs finally resign

By Christine V. Esguerra

IT AIN'T OVER YET, THE FIVE LAST steps. Five members of President Macapagal-Arroyo's Cabinet have tendered their courtesy resignations to prepare for the May 10 local elections.

Leading the way was Executive Secretary Eduardo Ermita, who said he filed his resignation on Tuesday, a day after the Supreme Court ruled that appointed officials resigning in the elections were deemed resigned.

Joining Ermita were Justice Secretary Agnes Guinsulid, Presidential Man-

## Aquino, Villar rock to People Power politics

## Whatever happened to some key Edsa I players?

all sectors and thousands of Filipinos. Here's a brief update on some of the less publicized but key military, religious and civilian players of that uprising that helped restore the freedom of the Philippines.

★ **JOSE ALMAYONTE**: It was Col. Jose Almonte who told Cory Aquino, her husband Jose Cojuangco and Jaime Cardinal Sin that something was going to happen at the third week of February 1986.

In a book he co-authored, Cojuangco said that Almonte told him that he and the RAM officers were

there to move and suggested that Aquino should not leave Manila. He offered to provide Aquino with security.

Aquino had called the civil disobedience in a massive rally at Rizal Park after President Ferdinand Marcos was proclaimed the winner of the fraudulent Feb. 7 snap elections by the

## On her last People Power rites, she says it's now partisan

By TJ Burguio

CLAIMING THAT THE "GLORIOUS REVOLUTION" had deteriorated into partisanship over the years, President Macapagal-Arroyo yesterday made her final appearance as the nation's leader at ceremonies commemorating the 1986 People Power Revolution.

Ms. Arroyo led officials in raising the flag at the People Power Monument on Edsa, which kicked off the day's activities to mark the 24th anniversary of the uprising that ousted the dictator Ferdinand Marcos and installed Corason "Cory" Aquino as President.

"The Philippines has come a long way since 1986. We regained our freedom and our national pride, but somewhere along the way we became complacent. People Power gained a partisan meaning that started to divide the nation into ours," Ms. Arroyo said in her speech.

Yesterday was Ms. Arroyo's last appearance at the Edsa I anniversary because her term ends on June 30.

Executive Secretary Eduardo Ermita, Christopher Corason of the New People Power Commission, Quezon City Mayor Feliciano Belmonte Jr., Armed Forces Chief of Staff Gen. Victor Bernal, Philippine National Police Director General Arsenio Velasco and Metro Manila Development Authority Chair Oscar Goicoechea joined Ms. Arroyo at Edsa.

## Metro rail loop finally finished

IMAGINE TAKING A COMBUTER TRAIN around Metro Manila without having to leave the car except at your final destination.

President Macapagal-Arroyo yesterday had that exhilarating experience when she took the media on a train ride from Quezon City through Calabarzon and Manila to Pasig City and back.

Ms. Arroyo marked the 24th anniversary of the 1986 Edsa People Power Revolution by taking the inaugural ride of the Light Rail Transit (LRT) Line 1 North Extension project from North Avenue, Quezon City, to Monumento, in Calabarzon City.

DEVIATING FROM THE NONPARTISAN stand of the Catholic Church hierarchy, two bishops have thrown their support behind a presidential candidate.

## Noynoy: Prove Luisita land overprice and I'll quit Senate

By Phillip C. Tubert III

**LIBERAL DUTY PRESIDENTIAL CANDIDATE** Sen. William "Deddy" Saxton (D-N.J.) vowed to resign from the Senate if it could be proved he used his influence to benefit his family's sugar estate in the construction of the Kable Chalk Tackles Refinery (KCR).

Speaking to business reporters and editors online this week, Aquino accused his critics in the U.S. of the controversy of "moral disengagement" and said he would soon travel where really benefited from the roadways' construction.

Earlier, Carlos Viegas, (Congressman of the rival Nacionalista Party (PNP)) claimed the government had bought swampland land from Hacienda Limón, which is owned by the Cajunabo side of Apichón family, for the university.

## Show me price

"When you look at the body of everything [Hemlock] said, I don't think he ever accused me of doing anything or failing to do anything," Austin said.

"Show me growing (proof) and I'll resign as minister," he added.

Agnew is in his first year in the Senate and could return to the chamber if he does not receive the nomination.

He said there were people who benefited from engaging in land speculation in the MYER project and he would soon come out with documentary evidence to prove it.

"There is no time in SCRA and we'll bring about the real name soon. We'll prove out the people who really made money with creative documentation," he said.

# Meralco seeks higher systems loss cap

By Amy B. Banta

**BOBBING** FROM the job is wanted in the back of the huge blue box. Meralco Electric Co. officials are waiting to see the cap on system losses imposed on electric utilities.

Under Resolution No. 17, voted in 2006, the Energy Regulation Commission (ERC) shared the system loss cap to only 4.5 percent in 2010 from the previous 5.5 percent.

With the ERC now looking to effect, Meralco has been waiting to see the end of electricity that has been lost either in transmission through power lines or pilferage.

The power distributor hopes to dump all that, it has again petitioned the ERC to raise the system loss cap for transmission losses to 5 percent from the 4.5 percent currently being implemented.

The power distributor hopes to dump all that, it has again petitioned the ERC to raise the system loss cap for transmission losses to 5 percent from the 4.5 percent currently being implemented.

**Domestic rates**

A system loss cap when to the first to be used which a utility may no longer receive from its customers the lowest of electricity.

According to the ERC, a lower system loss cap will likely translate to a lower system loss charge for residential customers.

For Meralco, increased that the "loss" in relation to the previously implemented system loss cap of 4.5 percent, domestic electricity rates, not only relative to the utilities but to all other utilities in the country.

Meralco added that under the proposed resolution, the effect of the global financial crisis on the country and its impact on electricity rates, would also be taken into account.

Meralco's system loss in 2009 stood at 5.11 percent. The utility said it would not mark this year a huge portion of its capital expenditure budget for projects aimed at increasing its system loss.

In August 2009, Meralco submitted a letter of request to the ERC to delay the implementation of a new system loss cap of 4.5 percent starting Jan. 2010 in light of the impact of the global financial crisis on the country.

**Rejected**

But the request was rejected by the ERC in November last year.

"It is true that the timing of electricity transmission between industrial consumers that are connected to high voltage and natural resources that are connected to low voltage has an effect on the total system loss. However, it should be noted that both the existing and the proposed new system loss cap are based on the loss of whether or not the transmission is highly efficient," said ERC chair Juan M. Chua in a letter to Meralco.

In the Meralco's request, it said it is aware of pilferage, theft and the company's own losses have "greatly declined" since its creation in 1991 and continues to decrease as the utility's.

# Whatever happened to some of these key Edsa I players?

## Edsa I players: What happened to some of these key Edsa I players?

By Ben, who was not included to remain in Cebu and I have a lot of preparation for a nationwide strike to end the war. Marcos' strategy was on Feb. 26, 1986, was a member of RAM and was considered its "leader."

He was appointed by Marcos to head the Philippine Center for Advanced Studies of the University of the Philippines. The study had been named after him as the only one of the three that had been established in 1986. The project aimed to establish a new center.

## Similar grievances

Alonso was much older than the members of RAM's new group, who graduated from the Philippine Military Academy 12 years after he did. It is a pity for the fact that in 2006, he said that in his continuing conflict with them, he was a young officer, he became a young officer of his unit.

Alonso said they told him of "the PMA education they lost, of the deaths of soldiers under their care, and of the younger people they had to kill in what they saw as a futile war, even while the police did in Manila continued to play their tactical games and politicians in Manila and in Manila continued to play their tactical games."

He said he found their grievance similar to what had moved him to join the group to end the war.

## Plot alleged

In the planned coup of RAM, one group would attack Malacañan and capture the president.

Alonso's role, along with Lt. Col. Victor Dizon, was to take the RAM command post at the Manila Hotel, where a launch of the "New Philippines" in Manila would be held.

The coup was alleged when Marcos discovered the plot a day before it was to be launched.

# THE PUBLIC DESERVES TO KNOW

**Business Community** expresses serious concern about the Shell Tax Issue

In various public statements in recent weeks, Pilipinas Shell Petroleum Corporation (Shell) clarified its position on the key issues regarding the alleged non-payment of excise taxes for its imports of Catalytic Cracked Gasoline (CCG) and Light Catalytic Cracked Gasoline (LCCG). Shell maintains that it has paid all applicable taxes on these raw materials, and that there are no factual or legal bases for saying otherwise.

Various business organisations, including the **Joint Foreign Chambers (JFC)**, as well as the local federations **Employers Confederation of the Philippines (ECOP)**, **Philippine Chamber of Commerce and Industry (PCCI)** and **Philippine Exporters Confederation Inc. (PHILEXPORT)** have earlier spoken on this issue, due to its serious political, economic and social implications for the country:

1. This issue results in double taxation (the imposition of excise tax on both the imported raw materials used and in the finished products), which not only puts Shell in an uneven playing field compared to other oil players, but more importantly:

- Reflects instability in government policies (with dangerous precedent set due to retroactive application); and
- Results in a policy implication of discouraging manufacturing investments in the country, thus, destroying the higher value added the industry contributes.

2. The issue similarly reflects abuse of seizure power by the Bureau of Customs, against importers with contested tax assessments.

In their February 15 public statement, the **Joint Foreign Chambers**, representing seven Chambers of Commerce and Industry, numbering around 1,700 multinational companies with substantial investment in the Philippines, echoed the above concerns as its members watch the tax dispute closely:

**"Double taxation, taxing both intermediates and final product, undermines the JFC's efforts to encourage manufacturing investments in the Philippines. Double taxation favors trading over manufacturing, which cannot be in the interest of Philippine economic policy makers. We suggest that this policy be urgently addressed as it is detrimental to the vision of growth in manufacturing."**

On February 24, the **Financial Executives Institute of the Philippines (FINEX)** and the **Management Association of the Philippines (MAP)**, similarly issued a joint statement which expressed grave concern over the decision of the Bureau of Internal Revenue with regard to taxes applied to Shell:

**"Consistency, predictability, and fairness of government policies, rules and regulations are essential to business. If investments are to be attracted, businessmen should be confident that their investments would not be subject to arbitrary and unreasonable regulatory and policy changes."**

**"There's no way an investor can calculate risks associated with abrupt changes in government policies. He is not going to invest in a country with an inconsistent and uncertain regulatory climate. He will just go elsewhere."**

Shell, together with the business community, remains vigilant and hopeful for the immediate resolution of this important issue. This issue is important and as part of Shell's business principles, it is Shell's duty to provide the public with accurate and truthful information, in the spirit of fairness and transparency.

## Tired but inspired Giants gun for 2-0 vs Aces today

By Cedric P. Nolas

**PHILIPPINE COACH** **JOHN BRIDGES** has stopped asking his players how they feel about the possibility of schedule tie-breakers being given through wire this past week.

"There is no time to get tired, no time to rest," said Bridges. "It's the team and we all wanted to be here."

Bridges will be playing his 10th game in 20 days tonight when the Giants shoot for a 2-0 lead against the Alaska Aces in their PFFA Philippine Cup home-of-sports action in the Alabaster Coliseum.

"I have stopped asking them if they are tired or not," said Bridges. "We just want the best performance."

Behind the steady shooting of James Joy and Kirby Sayson and their inside defense, the Giants showed their way to a game-winning 34-77 victory in Game 1 Wednesday.

The victory altered the perception that the Aces are the favorites in the series after getting the better of a week-long test following their initial sweep of Barangay Ginebra.

The Giants took the Aces out of their rhythm, dominated their defense and put the Aces' top scorers into an uncomfortable position—forced to shoot in the second half.

"It's really great momentum now for us to get the better of our Aces," said Bridges. "We're only one game away from the championship."

in Game 2.

"I think we can play a better game," said Bridges, whose team was held to just 16 percent shooting in Game 1.

"We didn't play well in Game 1 and some of the credit goes to them. We are better in terms of shooting than we were in Game 1."

in three days in order to win the series.

"We just need to get a second win in Game 2," he said. "If you take a second win, they will be surprised."

Djokovic took the first set after breaking his childhood friend's serve in the first and second games, but Flanagan responded, dropping only one point on his first serve in the second set.

Djokovic seized into a 4-0 lead-set lead, eventually breaking Flanagan with a big serve. He will play Ljubičić in Thursday's quarter final.

# Gov't reports 44% rise in '09 net borrowings

By Razel M. Domingo

THE GOVERNMENT POSTED a year-on-year increase in its net borrowings in P229.9 billion from P160.1 billion in 2008, the Bureau of the Treasury said.

This was mostly due to the rising spike in foreign loans tapped by the government during the year in P151.4 billion from just P77.8 billion a year ago.

## Corporate bond issues surged in '09 to P411.8B

By Michelle V. Nolasco

### San Miguel tops list of issuers with P38B

THE MALE OF CORPORATE BONDS sold in the local market most this triple '09, according to the latest data from the Philippine Securities Exchange.

BSP data showed that corporate bonds will last year amounted to P411.8 billion, surpassing by 556 percent from only P117.4 billion in 2008.

Some of the biggest bond issuers last year were San Miguel Corp. (P38 billion), Basesan Inc. (P19 billion), International P21 billion), Philippine National Bank (P17 billion) and Manila Electric Co. (P17 billion).

Monetary officials said that last year, companies were still able to fund their operations, thus helping keep the economy afloat despite the recent global economic crisis in America.

The increase in the amount of bonds sold also indicated that the domestic capital market was very liquid and able to absorb to invest despite the global economic environment outside the country, the BSP said.

BSP Governor Benigno Aligoso Jr. said,

it said that the drop in bond issuance was not seen beyond the slowdown in the growth of bond holdings in 2009.

Some companies raised funds through a bond sale, thereby reducing their demand for bank loans.

Stronger and the slower growth in bank lending, therefore, should not be viewed as a signal of declining appetite for investments.

Data from the BSP showed that the last quarter of bond issues reached P2.1 trillion, up by 10 percent from a year prior.

Tetapoco said the moderate rise in bank lending and the surge in corporate bond issuance helped the expansion of corporate loans in 2009 and helped the economy grow amid a contracting global economy.

The Philippines, measured in terms of its gross domestic product, grew by 0.9 percent last year, slower than the 3.4 percent in 2008, but better than most of its neighbors.

Banking industry players, however, said the slowdown in the growth of bank lending was partly due to the bail out by the amount of loans a bank may extend to a single borrower.

Ann Puno is a colorist, a model, a singer, a dancer, and a mother of two. She is a woman of many talents and a woman of many dreams.

When she turned our birthday girl of the week, Addings, at the lovely Silverstone Hotel, it was a night to remember.

Her husband, writer and singer Yago Puno, managing partner of Silverstone, Puno and Puno law offices and chair of Governor Francisco Duque III, together with their well-known Puno children, Roco, Yago, and Luis, planned the dinner-dance reception in Ann's honor, with a lovely menu, cake, program for the golden girl.

Joined by my parents Johnny Lison, the program presented a dance by the Sisters of Mercy (NCR), a group of women known since the 1960s for their devotion to social justice and led by Rocio Lison, who is a singer, dancer, and a mother of two. The dance was followed by a performance by the Sisters of Mercy, who are a group of women known since the 1960s for their devotion to social justice and led by Rocio Lison, who is a singer, dancer, and a mother of two.

A short while after the presentation of Ann's birthday cake, the program continued with a musical performance by the Sisters of Mercy, who are a group of women known since the 1960s for their devotion to social justice and led by Rocio Lison, who is a singer, dancer, and a mother of two. as Mikolajewicz, former creative and regional manager of Nike, the timing was right as Filipinas' success in Indonesia are being leveraged.

Card was familiar with Collection C2's success story, a clothing brand that got a second launch of life-saving to the grace of its creative director, who served as the country's top in one day and hasn't stopped doing so since. The Filipinas' creative told the idea to the Mikolajewicz headquarters in Manila. The Philippines is the fastest growing market for Mikolajewicz in Southeast Asia.

"Filipinas have a strong affection for Collection C2. It's also true for Mikolajewicz, its story is very powerful about it. They have an emotional link with their country. And National Book Store is an institution here, so it's a good match," Card said.

Mikolajewicz is the legendary writer and publisher of the world's famous women, artists and thinkers like Hemingway, Van Gogh, etc.

On the collaboration, the Filipinas map is all-around, where white and black, with the words "My Filipinas" written on the bottom left of the cover. Nike's famous map shirt line is called My Filipinas. It comes in dark blue (17,498) and purple (19,995), and is sold in about 100 boutiques and in select, and in Collection C2 boutiques. Only a little over 5,000 pieces are available.

Card said they had chosen a design that was modern to appeal to wide range of users.

Mikolajewicz has collaborated with other brands, like Converse in Hong Kong, Levi's in South Korea, where it had in Holland, Thailand, publishing and—so far the most popular—the success of the Mikolajewicz typology.

"We're not collaborating that we're not," Card said. Card's aggressive marketing seems to underscore his opinion

**RIGHT** Rula, Collection C2 creative director Tina Mikolajewicz, National Book Store's regional manager and NBS Foundation chair Jonathan Qiu, Collection C2's managing director

that, despite digital breakthroughs, writing long hand is nowhere near extinction.

"When I started the company (The Long Unit Ltd.) in 2004, everyone was using Palm Pilot, so people must have thought I was crazy," he said. "But I kept buying Mikolajewicz."

in France. Now people have moved on from the Palm Pilot to the iPhone but Mikolajewicz's still there. I use both as phone, a PDA and a Mikolajewicz. They have different uses, but it's the way it is. And I use the Mikolajewicz for what's important. It's quite interesting."

Mikolajewicz are designed in Italy and handmade in China, hand like books and using sustainable paper. Like Nike's shirts, it has inspired copies all over the world, but doesn't have the dollar sign and such in the end, said Card.

Printed significantly higher than most notebook brands, could the special-edition Mikolajewicz, attract the same high market Collection C2 My Filipinas shirt line?

The team behind it is confident it will. Mikolajewicz has a niche market, and has sold more and collections in fact. Now will open this year the notebook brand's first shop-in-shop in the country, where the retail Mikolajewicz online, but will be available to its growing collection.

## Drugstore brands that deliver

**BACK IN THE DAY**, THE ONLY ACCEPTABLE drugstore beauty products were those that had a simple, clean and easy-to-use formula. Drugstore brands were acceptable only for those in their 20s and 30s. Well, that no longer holds true, as the latest drugstore brands will prove that you, too, can have a simple, clean and easy-to-use formula.

Pong's Age Miracle Concentrated Resurfacing Serum helps restore the skin's natural glow. It contains CLAI complex which works on skin's natural texture, making it smoother and giving it a more youthful glow.

Asian women's skin being more sensitive to aging, Pong's Age Miracle Concentrated Resurfacing Serum helps restore the skin's natural glow. It contains CLAI complex which works on skin's natural texture, making it smoother and giving it a more youthful glow.

It is one of the Age Miracle serum and day-and-night cream. Liza said she had noticed it in the early stages of pregnancy that her skin became more sensitive to aging. She added the serum to her skin regimen after the doctor and before the day-and-night cream, and before the week was over, her skin was glowing.

Although doctors said to be pregnant women, the Pong's serum and day-and-night cream will deliver that it is the perfect to restore your skin before using the day-and-night cream.

### Cheap anti-age products

Women in their 30s and 40s are often charged the for recommending anti-aging products. Many products that cost less than a dollar.

Well, I finally found Pong's Flawless White Spots Bleaching Serum, which can be used on the face as early as you 40s if you already show signs of premature aging.

My favorite of the line is the Pong's Flawless White Spots Bleaching Serum, which can be used on the face as early as you 40s if you already show signs of premature aging.

A lot of women look younger than they are from the skin, but their neck, arms and shoulders show lines, age spots

and a rough texture that betrays years of exposure and sun damage. I say go for the extra mile and apply on your hands and chest area at night.

The 20Age line has ingredients like Vitamin A and Vitamin C to increase skin cell renewal, recovery and vitality.

The brand cream, called 20Age Age Miracle Concentrated Resurfacing Serum, is beneficial in all ages and prevents premature aging and prevents the signs of premature aging. I apply this during the day every time I wash the face and use the body care at night.

The 20Age Cream for Day with SPF 15 and SPF 30, and the 20Age Cream for Night with SPF 15 and SPF 30, are the 20Age Cream for Day with SPF 15 and SPF 30, and the 20Age Cream for Night with SPF 15 and SPF 30.

## Heber is a liar, says Filscap head

By Probable Conscience

**THIS A LIAR?** SCREAMED songwriter and former musician Heber. He was crying to a microphone in a room in the office of the Philippine Society of Composers, Authors and Music Publishers Inc. (PSCAP) in (Quezon) City. Heber's allegations made by Heber himself, a PSCAP member and former officer. "We started this, we'll finish it," declared Heber, who was sitting in the chair of the board of trustees. He was referring to the complaint that Heber himself made with the National Bureau of Investigation on Sunday, in which the latter claimed Heber's financial activities, particularly Heber's money involving PSCAP.

Filscap is a company, supposedly agency that collects royalties for its members whose songs are used on TV, radio, in the movies, concert halls, banks, clubs, restaurants, KTV, bars, malls, and other establishments.

But he has been misled. He said, adding that the agency had suspended Heber's last month for "double-counting songs (in another words) collected" without Heber's knowledge.

"Heber, according to him."

In 2007, Heber signed with PSCAP member, submitting it to be to music publishing agency.

Heber's allegations against the agency produced by Heber's own company, which contains a copy of Heber's "Heber the King the King."
